

Sophie Loupias

engineering student

I am an aspiring engineer in the field of electronics and electrical energy looking to apply my technical skills to solving real problems. Hard-working, adaptable, with the ability to connect with people from different backgrounds, I am a great asset to any team.

Internships

Insurance intern | Cornerstone Insurance -Virginia, USA

- Policy administration: Audited portfolios to identify expiring policies and researched client accounts to maintain accurate database records.
- Client communication: Answered incoming calls and managed email communications, ensuring prompt responses
- Accounts receivable: Conducted email follow-ups on past-due accounts to resolve late payments and ensure continuity of coverage.

Professional experience

Cook & Vendor | farmer's market -Albi, France

- Customer Service & operations: Prepared and served food while ensuring good customer service.
- Efficiency & Organization: Maintained smooth workflow during peak traffic hours to reduce wait times.
- Team Collaboration: Communicated effectively with team members to ensure coordination, timely setup and continuous service.

Teacher's assistant | elementary school

- Child Supervision: Supervised groups of children (ages 3–6), maintaining a safe and structured environment.
- Program Development: Worked with the educational team to plan creative and developmental activities.
- Teamwork: Demonstrated patience and adaptability in managing daily classroom dynamics and supporting lead teachers.

Projects

Solar panel MPPT

- Conducted characterization of photovoltaic modules, generating and analyzing V(I) and P(I) performance curves.
- Modeled and simulated the complete power system circuit and Buck converter in MATLAB/Simulink to validate the algorithm design.
- Programmed and implemented a Maximum Power Point Tracking (MPPT) algorithm on an Arduino microcontroller to optimize solar energy conversion efficiency.

Education

ENSEEIH: Master's in electronics and electrical energy

Canyon Crest Academy: High school (San Diego, CA)

Lycee Lapérouse: Baccalauréat with highest distinctions

Lycee Bellevue: preparatory class in physics and engineering science
